**Subject:** RE: Meeting with Bayer

Thank you all for the call yesterday. This email is to follow up on a couple of points raised.

During the meeting, a question was asked regarding why Missouri and Kansas were placed in their proposed state grouping. We included these two states in the proposed green zone grouping, for which no changes to the current label are proposed, based on Bayer's 2021 off-target movement inquiry data. Bayer had received only one in-season off-target movement inquiry for Missouri and only six for Kansas, and most of those inquiries were reported after the existing cutoff date. Consequently, we proposed placing MO and KS in the same grouping as other states with similarly low numbers of inquiries and/or late dates.

Additionally, a question was asked regarding the recent supplemental submission of additional data in response to the 6(a)(2) letter from EPA. We indicated that, in part, that submission would contain a total of 25 PDF files; however, for efficiency in uploading through the portal, we have merged all 25 files into a single PDF file and bookmarked within that single PDF each of the 25 individual PDF files. That submission was uploaded to the portal, with submission information shown below:

*Your PSP package (XtendiMax With VaporGrip Technology, EPA Reg. No. 264- 1210) for BAYER CROPSCIENCE LP (264) has been successfully transmitted to OPP.*

*Below are the application(s) included in this package and their tracking number(s):  
XtendiMax With VaporGrip Technology, EPA Reg. No. 264-1210: CDX\_2021\_011231  
Company Name: BAYER CROPSCIENCE LP  
Company Number: 264*

Please, reach out if more information is needed.

Freundliche Grüße / Best regards,

George Sabbagh, Ph.D.

**Subject:** RE: Follow-up

Tom,

Thank you for your note and recent engagements on this issue. I appreciate the additional clarity regarding Bayer's proposal for interim label changes for Dicamba Over-the-Top applications for the 2022 use season and the recognition that additional scientific review is needed to support changes for 2023.

In response to your note:

- 1) As stated in recent announcements and conversations with state leadership, we are very amenable to prioritizing directionally-correct requests to add state-specific labeling restrictions. We are hoping to process the two identified requests as quickly as possible to take effect before the 2022 growing season. The team recently sent questions to Bayer and other registrants about existing inventory in order to determine how re-stickering can occur in time for the 2022 use season.
- 2) As for additional ESA-focused measures described below, we have identified certain issues that need to be more fully understood before we proceed.

Including:

- a. In order to effectively mitigate risk in these identified counties, all registrations of dicamba OTT will need to be addressed consistently. Making changes to only the Bayer product would cause confusion in the field. How will this be addressed?
- b. Given that these proposed interim label changes are occurring late compared to plans that growers have made for the use season and that EPA will be in a similar position as in 2021 (i.e., with no field information to evaluate the new changes), how will state requests to support expansion of use in these specific ESA counties under section 24(c) be approached by Bayer? As you are aware, given the level of incidents, and the need for additional data, we would generally not be inclined to approve such requests.
- c. How will enforcement occur given that the BLT language on the container label currently instructs users to consult Bulletins within 6 months of making an application, and the updated bulletins will only be in place within a couple of months of when we might expect OTT applications to be made?
- d. How will grower confusion be addressed? Particularly in states that may have already provided dicamba-specific training prior to the timeframe by which these changes could be made.

3) Additional details regarding the proposal would be helpful:

- a. Explanation of the which counties or sub-counties would receive restricted Dicamba applications. If you have a proposed list of counties or sub-counties, we would like to review it.
- b. How would mitigations in counties adjacent to "ESA counties" be addressed?
- c. How would applications specifically be limited?

All the best,  
Ed

**Sent:** Thursday, February 3, 2022 7:41 PM  
**To:** Messina, Edward <[Messina.Edward@epa.gov](mailto:Messina.Edward@epa.gov)>  
**Subject:** Follow-up

Ed,

Thank you for taking the time today to meet with us; I look forward to discussing next steps in the coming days. For your benefit as you discuss internally, here is a brief summary of what we presented:

- We continue to work with states to support state-specific changes. Currently, you should have proposals from MN and IA. We expect ND will be next to propose changes. IL and IN have state specific restrictions in place and we are awaiting word from them and other states on what they may be submitting to EPA. We are supportive of each of these state changes.
- In addition to those state-specific changes, and given concerns raised by EPA about the 2021 season, we believe additional ESA-focused interim measures should be implemented prior to the 2022 season.
- To that end, we continued discussions regarding our proposal to restrict applications to pre-emergent only for 2022 in each of the counties where ESA plants were previously identified (we have previously referred to these counties as "ESA counties"), unless a qualified spray hood is used. We envision this new

restriction as an interim measure, pending the larger assessment and process EPA described in the BEAD document. We believe this proposed interim measure is a significant additional and meaningful restriction, and also noted that allowing continued applications with a qualified hood is well supported by the data and could increase adoption of hoods.

- In addition, we are eager to work with you on what the 2023 label should look like, and we are fully aware that it is likely to be different in certain respects than the interim measures we have proposed for 2022.
- We are fully prepared to engage our customers directly and take appropriate ownership to minimize the impact these interim measures would cause.
- We noted a number of ways to drive awareness of these changes ahead of the 2022 season: through the existing label, which already obligates applicators to comply with BL2 and Xtendimaxapplicationrequirements.com; through required training; and through additional processes to target individual applicators, licensees, and retailers.

As we noted, we can have implementing language to the Agency as early as Monday. Thanks again, and we look forward to discussing next steps.

**Subject:** RE: [EXT] RE: Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provide a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

Hi, all.

We're planning on responding to you with a document containing updated terms and conditions this evening. We will need a response to these terms and conditions by 11am tomorrow. Meg will be putting a 9am (Eastern) meeting on the calendar so we can quickly walk through and talk out any immediately obvious issues. Please let us know if your participation in that meeting is possible.

If there is additional feedback on the document sent at 11am, we would appreciate your cooperation in turning any subsequent versions around at maximum speed.

Thanks,  
Lindsay

Hello Jeff:

In reply to your question, prior to initiating that correspondence as per section 3c. EPA would also to be able to view the final correspondence upon request if needed, but the main intent is for EPA to be able to look at that correspondence and provide comment before it is distributed.

**Subject:** RE: [EXT] RE: Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provide a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

**Subject:** RE: [EXT] RE: Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provide a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

**Subject:** RE: [EXT] RE: Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provide a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

Hello Jeff:

In reply to your question, prior to initiating that correspondence as per section 3c. EPA would also to be able to view the final correspondence upon request if needed, but the main intent is for EPA to be able to look at that correspondence and provide comment before it is distributed.

**Subject:** RE: [EXT] RE: Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provide a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

**Jeffrey Birk**

 Registrant Comments Dicamba Draft Terms\_clean-edits-highlighted-3-10-2022\_post registrant call (002) registrant reply 3-14-22.docx

Hello Meg,

We just wanted to a reply to 2e comment from last week. I believe that 45-days was suggest on the call, just to give the registrants a little more time to respond with the report.

Thanks,

Jeff

Hello Jeff:

In reply to your question, prior to initiating that correspondence as per section 3c. EPA would also to be able to view the final correspondence upon request if needed, but the main intent is for EPA to be able to look at that correspondence and provide comment before it is distributed.

**Subject:** RE: [EXT] RE: Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provide a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

Hi, all.

We're planning on responding to you with a document containing updated terms and conditions this evening. We will need a response to these terms and conditions by 11am tomorrow. Meg will be putting a 9am (Eastern) meeting on the calendar so we can quickly walk through and talk out any immediately obvious issues. Please let us know if your participation in that meeting is possible.

If there is additional feedback on the document sent at 11am, we would appreciate your cooperation in turning any subsequent versions around at maximum speed.

Thanks,  
Lindsay

**Subject:** RE: [EXT] RE: Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provided a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

Hi, all.

We're planning on responding to you with a document containing updated terms and conditions this evening. We will need a response to these terms and conditions by 11am tomorrow. Meg will be putting a 9am (Eastern) meeting on the calendar so we can quickly walk through and talk out any immediately obvious issues. Please let us know if your participation in that meeting is possible.

If there is additional feedback on the document sent at 11am, we would appreciate your cooperation in turning any subsequent versions around at maximum speed.

Thanks,  
Lindsay

Hi Meg,

We realized we didn't specifically respond to your comment on the timeframe for sending EPA the report of our activities for our efforts around these labels. During our meeting, we had discussed +45 days after approval for submitting the report, and we concur with that timeframe.

Thanks,  
Steven

**Subject:** Updated Draft Dicamba Terms - RE: Dicamba OTT Discussion

Dear Dicamba Registrants:

Please find the attached document containing the draft terms and conditions discussed during our 3pm meeting today. As noted previously, areas of recently revised text are flagged in blue or green highlighting. Comment bubbles identify places where feedback is particularly requested.

Best regards,  
Meg

Margaret Hathaway (Meg)

Hi, all.

Bayer would like to take an hour to give us a preview of the information that they have gathered on dicamba over the last year. They are not planning to submit any data before the meeting but have indicated that we will receive it afterwards. A white paper synthesizing their findings is to be delivered after that, and we can determine the schedule for that at this meeting.

Does anyone have any specific questions that we'd like them to be prepared to address? If so, please send those my way.

Thanks,  
Lindsay

Hi, all.

Bayer would like to take an hour to give us a preview of the information that they have gathered on dicamba over the last year. They are not planning to submit any data before the meeting but have indicated that we will receive it afterwards. A white paper synthesizing their findings is to be delivered after that, and we can determine the schedule for that at this meeting.

Does anyone have any specific questions that we'd like them to be prepared to address? If so, please send those my way.

Thanks,  
Lindsay

Hi, all.

Please see attached for the presentation from Bayer for our meeting today.

...

Bayer is planning to come in with additional mitigation proposals that they would like to present to the group.
